Welcome to the Yorkshire Wildlife Park Foundation

Yorkshire Wildlife Park has come a long way since it opened in April 2009 with the vision to be a dynamic centre for conservation and welfare.

In 2010 YWP rescued a pride of 13 lions from a run-down zoo in Romania. Lion Rescue, the largest big cat rescue of all time, made headlines around the world and put YWP into the international spotlight.

In 2011 the park built Land of the Tigers – a purpose built enclosure and breeding facility for the endangered Amur Tiger. And soon after, the critically endangered Amur Leopard arrived. It is thought there are only around 40 individuals left in the wild. The award winning “Leopard Heights” enclosure will help to safeguard the future of the rarest big cat in the world.

In just five years the park was winning a worldwide reputation for animal welfare and conservation.

In 2013, the Yorkshire Wildlife Park Foundation was created, with the aim to be a dynamic catalyst for inspiring people to support conservation and welfare at the park and in the wild.

YWPF’s charitable objectives are to promote and advance the conservation and welfare of endangered wildlife both in their natural habitat and in captivity and to educate and inspire the public.

Our Vision

Our vision is a better world for wild animals. Our mission is to connect dynamic communities who promote, conserve and sustain the world’s biodiversity and improve animal welfare.
With over 60,000 educational visitors per year, schools are a vital part of our fundraising network and one of our biggest group of supporters.

Get your whole class involved in fundraising for YWPF. It is a great way to inspire children about animals and the great outdoors. See our A-Z guide for some exciting fundraising ideas.

YWPF would like to hear all about your events and support them on social media and of course help to celebrate your success. Send us photographs of your events to educationadmin@yorkshirewildlifepark.com

Why we need your support

Conservation doesn’t just happen on our doorstep, we support projects and other organisations across the globe.

By forming international relationships, staff can share knowledge and expertise to help conservation in the wild. For instance YWPF support Painted Dog Conservation, Flora and Fauna International, Polar Bears International, Amur Leopard and Tiger Alliance and Wild Welfare in addition to other charities.
